From constructing, tuning, and burning loops with the Alien Egg, to navigating the platforms of our dark multi-verse, players will need a tool to help them delve into the depths of the unknown. Enter TribeXR - the VJ Controller. TribeXR - The VJ Controller is a MIDI controlled controller that allows you to navigate and manipulate your LED lights in Resolume and other VJ software with a MIDI controller. Resolume is fully compatible with the VJ Controller. This content is designed for Resolume versions 3.6 or higher. Features: - Remote controls over 100 effects, including switches, faders, knobs, and buttons. - Play with the keyboard or with your controllers, using the bindings on each effect! - 16 tempo settings, resampling, time shifting, tempo syncing, and other useful settings for the performance of live. - Fully configurable - change the assignment of hotkeys to any effect, record custom macros, and more! - MIDI Learn for your iOS device, so the controller will follow the effects! - Built for Resolume and other VJ software, a MIDI controller is capable of a huge amount of control. The team at Redshift brings that MIDI controller technology to TribeXR - we want you to be able to explore and conquer the universe of entertainment. The VJ Controller is a MIDI controller that can control over 100 effects through Resolume 3, and allow for full velocity control. The controller is fully configurable and the team at Redshift is available to help with any customizations. - All effects can be accessed through the main interface. - The VJ Controller also has a MIDI Learn function so that it can be mapped to your iOS device via the Apple MIDI system, and automatically follow the controls used on the iOS device. - Keyboard-driven sequencer and universal automation - MIDI learn for the controller and iOS device - VJ Controller compatible with the Resolume 3 engine, Resolume 4.1, and Resolume 4.0 Gamescom 2017 is now over, and there's plenty to play! The Redshift team is working hard to bring the game to Mac, PC, Linux, iOS, and Android. Stay tuned for more info! Until then, we're working on adding more content and features to the game, including more aesthetic and finishing touches. We're also hard at work on

Play as an experimental subject, or help them to escape! A nightmarish prison without light, cold or sound... It's a spider's nightmare. Avoid and kill some amazing spider's and take their eggs, too! There are five stages: 1. The Main laboratory 2. Cell 16 3. Cell 16 Part 2 4. Cell 26 5. The Main laboratory 2 There are 4 difficulty levels to choose from. You have to check back every 3 hours to see how you are doing in your test. You are able to drag and drop items on the cage. This is useful to avoid spiders in some stages. This game is FREE October 13, 2016 This is the best game i have ever played Hi, I really love the game, I want to make a gameplay video of this game. So if you want to make one, just use my link: in the description there is a picture of me playing, and a description of me playing. Hope you like it. Thanks July 21, 2016 Orleans Killer Orleans Killer is a free stealth game, where you will experience intense close quarters combat and stealth as you attempt to escape a large city full of heavily armed guards. Navigate through the gas filled streets to your exit point, and avoid detection at all costs. Features: Encounter and fight an enhanced AI Extensive fighting system allows for special abilities, melee weapons, and firearms Three main weapons types: Energy Weapons, Guns, and Melee Over twenty different enemies Surveillance and send in backup to help Game includes six different difficulty levels A radio communication feature with allied operatives to assist with escaping Detailed and varied environments to escape in At the beginning you walk around the city and explore the environments and after awhile you become paranoid that something is following you. As in any other paranoia-inducing situation it is best to run with your back to the wall, away from open spaces. On the first few levels it will be more likely that there will be other players to encounter and you will interact with. Each time you encounter a companion you can decide if you want to talk with him, other than that the game is fully silent and you'll have to depend on instinct alone to avoid detection. Now running away from something is a difficult c9d1549cdd
